Subject: RE: San Jacinto River Superfund Site

Anne:

International Paper shares the concerns expressed on behalf of McGinnes Industrial Maintenance Corporation ("MIMC") in Al Axe's attached letter. MIMC and International Paper did not learn until Monday, December 21, that EPA was setting an immediate deadline for submission of the work plan. Because they had been diligently working on the work plan, they were able to submit the work plan later that same day. Respondents therefore have been timely and responsive to EPA's requests. We would like to schedule a call with you next week to discuss how to better coordinate the setting of deadlines for submissions. We would like to avoid a repeat of this situation. As you may know, based on today's field inspection, it appears that the cap has not been damaged contrary to prior conclusions.

Regards.

John
